

SPECIFICATIONS

The 368 Indoor Throwing Circle is built in accordance with NCAA specifications. The product consists of 2 sections of 3/4" plywood crescents joined on each side by 6" plated steel strap hinges. 4" plated steel chest handles are located adjacent to the four corners of the circle board. The handles lift up for transport and fold away for storage. The board is coated with medium gray enamel paint and marked with white stripes designating the throwing arc orientation. Overall surface covered is 8' x 8' square.

The 3680 Wood Shot Indoor Toeboard is designed to be used with the 368 Indoor Shot/Weight Throw Circle. Wood screws are provided to attach toeboard to 368 circle as shown below. The toeboard is fabricated from select yellow pine and sealed with two coats of white enamel paint. The 3680 toeboard, in combination with the 368 Throwing Circle, meets all NCAA requirements.
