

Step 1: Layout banner and rope on the ground. Attach the appropriate lengths of rope to extend distance between poles, up to 12 ft. Fasten banner to the ropes using carabiner clips provided.

Front View

Step 2: Set up banner. Have one person hold post while the other drives stakes into ground. Examine the top view for recommended orientation and spacing. Once one side is finished, repeat on other side. Pull rope taut and drive stakes. If banner is not centered, adjustments to stake placement may have to be made.
