# 260100 - PORTABLE FIELD HOCKEY GOAL

FIELD HOCKEY GOAL, PORTABLE

## SPECIFICATIONS

### PORTER No. 260100 FIELD HOCKEY GOALS WITH NET PORTABLE (ONE PAIR)

Field hockey goals shall meet all requirements for competition. Goals shall be 12'-0" in width, 7'-0" in height, and 4'-0" in depth.

Goal sideframes shall be of a unitized design to maximize stability and facilitate ease of assembly. Front of sideframes, and crossbar, shall be of a heavy-wall 2" x 2" rectangular steel tubing. The side facing the field of play shall be 2" to meet competition requirements. Sideframes, crossbar and backframe shall be finished in a durable white powder-coated finish.

Goal boards shall be provided to meet competition specifications. Boards shall be 1/2" x 18" in height, and finished in a durable black painted finish. Boards shall be mounted flush with the inside of the goal uprights to meet official rule requirements.

Goal nets shall be of 1-1/2" square mesh made of #21 thread black nylon cord, with a 2" wide binding, and weather-treated for long life. Lacing cord shall be provided with nets.

Unit shall be furnished with plated hardware.

## OPTIONAL ITEMS TO SPECIFY

- See Page No. R-260-101 for specifications on Porter No. 260101 Transport Kit (Set of Two).
